INSTRUCTIONS: If you will not be attending Clovis West in 2017-18, please complete the above information only. One purpose of pre-registration is to have an accurate accounting of student requests. We will use this information to develop the school's master schedule for the upcoming school year, computerizing the requests, developing the classes, assigning teachers and assigning students to classes. Asking for a change after the process is completed is asking for a seat in a class but the seat may not exist – so please be careful with your request. The classes you pick are yours – for the whole school year, as most courses are year long classes. It is imperative that students choose alternate courses as we can not guarantee your elective choices. Complete the entire form (front and back). There are areas that require student, parent and teacher to complete. When completed, this form must have a minimum of six classes circled plus alternate classes. Courses with a “PRE” next to them have prerequisites. Follow each step and complete each section as directed.

- ✓ Step 1: **Emergency Information:** Complete for 9th Grade Academy office.
- ✓ Step 2: **Parent/Student Signature:** Sign to approve course request and verify information.
- ✓ Step 3: **Summer School:** Complete if you will be attending summer school.
- ✓ Step 4: **Required Courses:** Circle one class from each department listed.
- ✓ Step 5: **Academic Electives:** Circle at least one class from science and/or world languages.
- ✓ Step 6: **Electives:** If six classes have not already been circled, you may choose from all listed.
- ✓ Step 7: **Alternates:** List specific alternate course numbers to replace specific classes.
