Clovis West families, we are proud to announce our solar project will begin on October 20th. Solar City will be installing solar panels in our front parking lot, much like the back lot and Fort Washington. These panels will not only provide shade for our parking lot, but will save the District thousands of dollars a year in electrical costs. Like any construction project, there will be some inconveniences. One half of the lot will be closed at a time starting with the east side by the tennis courts. Additionally, there will be some trees removed on Teague Avenue due to obstruction, with new, shorter trees slated to replace them. This project's completion date is set for early January.
