Meetings/Events Today

- Today's Mind Right Monday's focus is to spend a little time outside daily!
Studies show that being in nature can help decrease your anxiety levels and can help lessen stress and feelings of anger. While exercise can also help this, it's even better when you're outside. Regular access to green spaces has been linked to lower risks of depression and improved concentration and attention.
There will be a Mental Health Club Activity at lunch in C-4 today! All are welcome!
